# THE SEACRET STORY

The benefits of the Dead Sea have been an essential part of the Ben Shabat family's wellbeing for generations. When the family arrived from Israel to the USA, they were compelled to introduce their heritage to America and ultimately the world. In 2001, they launched their Dead Sea mineral-infused premium skincare retail business as **Seacret** and successfully grew to **over 900 locations**.

In 2011, the company embraced the concept of Social Marketing. This is a beautiful way to share Seacret and the benefits of quality products while helping others. **Seacret Direct** launched with a simple plan that offered the opportunity for others to start a business just by sharing their Seacret product experiences —**and it works**.

One of the most significant achievements is **our community** who share our commitment to being of service with integrity and positivity. The Seacret community is special in that we are supportive and caring of one another and strive to help improve lives of others as we grow. In everything we do and everywhere we go, we make the world a better place.
